Reliance Standard Expands Index Strategy Options on Reliance Accumulator® Fixed Index Annuity Series

PHILADELPHIA, PA, July 7, 2026 — Reliance Standard Life Insurance Company, a member of the Tokio Marine Group, today announced that the Reliance Accumulator® Fixed Index Annuity Series now offers five distinct index interest strategies, plus a fixed interest option. Completed with the addition of the newest strategy last week, the expanded suite gives Financial Professionals more ways to tailor solutions to a broader range of client risk profiles and planning objectives.

The newest addition, the Nasdaq-100 Intraday Elite™ 15%, uses intraday monitoring and joins to strategies added earlier this year: the S&P 500® Market Agility 10 and the S&P 500® Dynamic Intraday.

“Today’s advisors are working with clients across a wide spectrum of risk profiles and planning horizons. By expanding our index strategy lineup, we’re giving advisors more tools to tailor solutions within the principal-protected structure their clients count on,” said David Whitehead, Senior Vice President of Sales and Marketing at Reliance Standard. “Each of these strategies brings a distinct approach to managing risk and index exposure, together they open up new portfolio construction conversations.”

The Reliance Accumulator® Fixed Index Annuity Series is designed for clients seeking principal protection with the potential for index-linked growth. The series is backed by Reliance Standard’s financial strength, supported by an A++ (Superior) rating from AM Best, an A+ from S&P Global, and an A1 from Moody’s, and the resources of the Tokio Marine Group.

Financial professionals can contact their Reliance Standard distribution partner or wholesaler, or visit www.reliancestandardlife.com, to learn more about the Reliance Accumulator® Fixed Index Annuity Series and the expanded index crediting strategies.
